PING ERROR TEST

Explain proper scenario for following ping errors ?

Destination host unreachable

* This happens when the Sender does not have a default gateway configured

* Sender pc doesn't know exit door out of its own local network, so it drops message before it leaves building

Request timed out

* This happens when there's an issue with the destination default gateway

* Msg reaches target pc, but target pc doesn't know exit door to send its reply back to sender pc
